# Founder's Message

---

When I founded Shanvere Enterprise in January 2021, the goal was simple: teach everyday people how to participate in cryptocurrency without getting burned. No jargon. No gatekeeping. Just real education delivered in plain language to people who had never touched a blockchain but could see that the financial world was shifting beneath them.

What started as a WhatsApp group became a cross-border community. And as our members began to enter the market, a new problem became clear — people were getting scammed. Rug pulls. Honeypots. Fake projects with no intention of delivering. The education had worked, but the market still needed a safety layer.

That insight built WaraGuard. And that mission built \$WAR — the token that funds every product in the ecosystem, rewards the community, and becomes more scarce with every transaction.

Five years later, we have never taken external investment. Everything in this ecosystem was built from the 6% operations fee on \$WAR transactions — transparently, consistently, on-chain. This white paper is not a promise. It is a progress report.

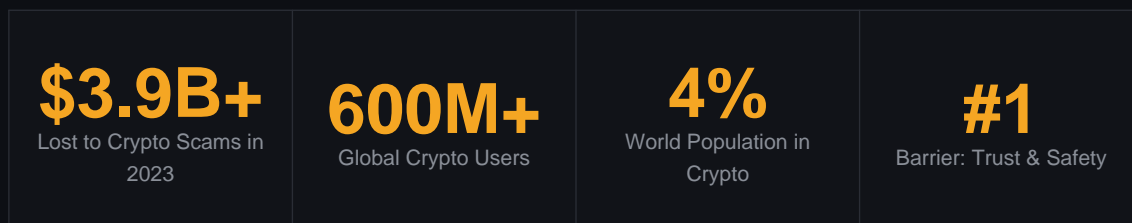

— **Anthony Abbin, Founder · Water Rabbit / Shanvere Enterprise**

SECTION 02

# The Problem We Solve

---

Cryptocurrency adoption is accelerating faster than the safety infrastructure around it. As more people enter the market — especially in emerging economies across Africa, Southeast Asia, and Latin America — the volume of scams, rug pulls, and honeypots is accelerating with them.

The majority of new tokens launched on decentralised exchanges carry at least one malicious flag. Most retail traders have no way to identify these flags before buying. Existing tools are either too technical for the average user, too narrow in their chain coverage, or locked behind premium subscriptions.

There is no single tool that gives any trader — regardless of technical ability, regardless of which blockchain they trade on — an instant, comprehensive, trustworthy safety report on any token. Free. In seconds. Across multiple networks.

**That is exactly what WaraGuard delivers. And that is why it is growing.**

## Our Origin — The Shanvere Story

---

Shanvere Enterprise was founded in January 2021 out of a genuine desire to educate people about cryptocurrency by simplifying it as best as possible. Members came from Nigeria, across West Africa, and beyond.

As the community grew, the need to guide members in making safe transaction decisions became more urgent. We could not vouch for the communities backing the coins or tokens our members were purchasing. It was based on this challenge that Shanvere members morphed into WAR-RIORS.

### OUR FOUNDING PILLARS

- Easy transition from fiat currency to digital currency — this has always been the spirit of the project.
- The process of learning never stops. The crypto space is still yet to be fully utilised — it holds limitless possibilities.
- We are a community-based project. We believe greatly in giving back to our immediate community.
- We built \$WAR to fund our ecosystem, reward participation, and demonstrate that a token can have real utility.

### WHY BINANCE SMART CHAIN?

Water Rabbit is built on BNB Chain (BSC) because it aligns with our purpose. BSC uses the Proof of Staked Authority consensus mechanism — enabling block generation of 3 seconds (versus Ethereum's 13 seconds) at a fraction of the cost. This means our community can transact quickly and cheaply, which matters enormously in emerging markets.

# The \$WAR Token

\$WAR is not a speculation token. It is the fuel and the fee layer of the Water Rabbit ecosystem. Every transaction burns supply. Every fee funds development. It is designed to shrink and strengthen simultaneously.

## TOKEN ARCHITECTURE

<b>Token Name</b>	Water Rabbit
<b>Symbol</b>	\$WAR
<b>Blockchain</b>	BNB Chain (BSC) — BEP-20
<b>Contract</b>	0x57Bfe2aF99AeB7a3de3bc0c42c22353742bfD20D
<b>Total Supply at Launch</b>	3,173,666,999
<b>Burned at Launch</b>	2,056,266,827 — 64.7% permanently removed
<b>Current Supply</b>	~860 Million and continuously decreasing
<b>Transaction Fee</b>	9% on every buy and sell
<b>Burn Mechanism</b>	3% of every transaction auto-burned — permanently, on-chain
<b>Operations Fee</b>	6% funds platform development, marketing and charitable outreach
<b>Liquidity</b>	Locked forever — cannot be withdrawn or manipulated
<b>Ownership</b>	Fully renounced to dead address — confirmed on-chain. Zero admin control.
<b>Exchange</b>	PancakeSwap V2
<b>Price Tracking</b>	CoinMarketCap · CoinGecko · DexScreener · DexTools

## HOLDER TIERS

Holding \$WAR activates enhanced rewards across the entire ecosystem. Tiers are verified on-chain via wallet connection.

<b>Regular</b>	Less than 1,000 WAR	1x WAR Points multiplier
<b>WAR Holder</b>	1,000+ WAR	1.5x WAR Points multiplier
<b>WAR Whale</b>	1,000,000+ WAR	2x WAR Points multiplier

# The Water Rabbit Ecosystem

The Water Rabbit ecosystem is an interconnected suite of products — each one serving a different need, all powered by the same token, all funded by the same community.

## WARAGUARD — ON-CHAIN TOKEN SAFETY INTELLIGENCE

Live at [waraguard.app](https://waraguard.app) · Google Play · Free for all users

WaraGuard is our flagship product. A real-time, multi-chain token safety intelligence platform that delivers instant, comprehensive due diligence on any token — before a single dollar is invested. No technical knowledge required. No subscription. Free on web and Android.

What WaraGuard analyses on every token:

- Safety Score 0–100: SAFE (60–100) | MEDIUM RISK (31–59) | HIGH RISK (0–30)
- Honeypot Detection — can this token actually be sold?
- Buy and Sell Tax — exact percentages surfaced clearly
- Blacklist and Mint Function detection
- Ownership Renouncement and Hidden Owner detection
- Liquidity Lock and Burn status with independent third-party verification
- Live Market Data — price, market cap, 24-hour volume, total liquidity
- Holder Count with direct block explorer link to top 100 holders
- All-Time High and All-Time Low market cap with exact dates and prices
- Full Token Supply — circulating, total, maximum and burned

Supported chains (11 networks):

Ethereum (ETH) · BNB Chain (BSC) · Solana (SOL) · TRON (TRX) · Polygon (MATIC) · Base · Asset Chain (RWA) · Optimism (OP) · Arbitrum (ARB) · Avalanche (AVAX) · Fantom (FTM)

<b>7,000+</b> Registered Users	<b>8,500+</b> Monthly Unique Visitors	<b>77K+</b> Monthly Page Views	<b>4.9 ★</b> Play Store Rating

## WARCAST — MEDIA & CONTENT

Available on Spotify and YouTube

WARCAST is the media arm of the Water Rabbit ecosystem. It covers crypto market analysis, ecosystem updates, trader education, and community storytelling — in the tone that has always defined Shanvere: accessible, honest, and grounded. Every listener is a potential WAR-RIOR.

## WAR LIBRARY — EDUCATIONAL RESOURCES

The WAR Library is a growing collection of free educational resources on cryptocurrency, DeFi, personal finance, Web3, and blockchain technology. Currently over 300 resources and expanding — freely accessible to every user on waraguard.app.

### **WAR POINTS — LOYALTY & REWARDS**

WAR Points reward real engagement — daily logins, token scans, streaks, and referrals. Points accumulate with multipliers based on \$WAR holder tier. A public leaderboard tracks the top contributors in real time.

## Traction & Milestones

Everything below has already been built and shipped. This is not a vision document. This is a progress report.

<p><b>7,000+</b> WaraGuard Signups</p>	<p><b>16,820</b> + \$WAR Token Holders</p>	<p><b>100K+</b> On-Chain Transactions</p>	<p><b>\$387K+</b> Current Market Cap</p>
<p><b>1,000+</b> Play Store Downloads</p>	<p><b>11</b> Blockchain Networks</p>	<p><b>2</b> Live API Partners</p>	<p><b>300+</b> WAR Library Resources</p>

### KEY ACHIEVEMENTS

- \$WAR token launched on BNB Chain — fair launch, full public access, no team allocation
- 64.7% of total supply permanently burned at launch
- Ownership renounced to dead address — confirmed and verifiable on-chain
- Liquidity locked forever — no team can withdraw
- Listed on CoinMarketCap, CoinGecko, DexScreener and DexTools
- WaraGuard launched as a fully functional multi-chain token safety platform
- WaraGuard live on Google Play Store — 4.9 stars, 1,000+ downloads
- 11 blockchain networks integrated and live
- 7,000+ registered users with 8,500+ monthly unique visitors and 77,000+ page views
- Two live partner API integrations — FireScreener and Giant Wallet
- WAR Points loyalty system with daily streak mechanics and public leaderboard
- Referral campaign launched and active — driving consistent new user acquisition
- Price alerts with real-time push notifications deployed across web and Android
- Wallet tracking live across all EVM-supported chains
- SMC DAO Ecosystem badge system live for community-verified tokens
- WARCAST live on Spotify and YouTube
- WAR Library — 300+ educational resources freely accessible to all users
- Android app live on Google Play under Water Rabbit Labs
- SEO fully optimised — WaraGuard ranking in organic search
- Submitted to DappBay BNB Chain directory

# The \$WARMAP — Roadmap

Our roadmap is structured around real milestones, verified at each phase before progression. Phases 1 through 3 are complete. Phase 4 is in active execution. Phases 5 and 6 represent the horizon we are building towards.

## 1 Foundation — Launch & Community

COMPLETE ✓

- \$WAR token launched on BNB Chain
- 500 on-chain holders achieved
- 2,000 wallet transactions processed
- Website developed and launched
- Roadmap and whitepaper published
- Telegram community created
- Play-to-earn campaign launched
- 64.7% of supply burned at launch

## 2 Growth — Listings & Airdrop

COMPLETE ✓

- Listed on DexScreener, DexTools and price tracking platforms
- 1st community airdrop campaign executed
- 1,000 wallet holders achieved
- Telegram OTC marketplace launched
- X (Twitter) account created
- West African community expansion

## 3 Verification — Trust & Transparency

COMPLETE ✓

- 2,000 Telegram members
- 2,000 wallet holders
- Community meme contest with prizes
- White paper released publicly
- Smart contract audit completed
- Community identity formalised as WAR-RIORS

## 4

### WaraGuard Launch — Products & Partners

IN PROGRESS →

- CoinMarketCap & CoinGecko listings secured ✓
- WaraGuard live at waraguard.app ✓
- Google Play Store launch — 4.9 stars, 1,000+ downloads ✓
- 11 blockchain networks supported ✓
- 7,000+ signups, 8,500+ monthly visitors ✓
- FireScreener & Giant Wallet API integrations live ✓
- WAR Points loyalty system and leaderboard live ✓
- Referral system and price alerts deployed ✓
- First CEX listing — In Progress
- 10,000 wallet holders — In Progress

## 5

### Scale — CEX & Expansion

UPCOMING

- 200,000 on-chain transactions
- CEX listing — Tier 2+ exchange
- Increased DEX liquidity depth
- 2nd charitable community outreach
- 20,000 wallet holders
- WaraGuard platform redesign — Apple Ultra Minimal UI
- Expanded partner ecosystem

## 6

### Maturity — Full Ecosystem

UPCOMING

- 300,000 on-chain transactions
- 50,000 wallet holders
- Multiple CEX listings
- \$WAR NFT collection launch
- 3rd charitable outreach
- Ecosystem token rewards for WAR Points holders
- OTC platform development
- Advanced strategic partnerships

## Partners & Data Sources

WaraGuard's safety intelligence is powered by the most trusted names in on-chain data — and our product integrations are live with recognised platforms in the Web3 space.

### DATA & SAFETY PARTNERS

<b>GoPlus Security</b>	Primary on-chain safety data — honeypot detection, tax, ownership, blacklist and mint functions
<b>DexScreener</b>	Real-time price, market cap, volume and liquidity data across all chains
<b>CoinGecko</b>	ATH/ATL data, supply information, listed token verification
<b>Birdeye</b>	Dedicated Solana data source
<b>CoinMarketCap</b>	Market data and public listing visibility

### PLATFORM PARTNERS

<b>FireScreener</b>	Live API integration — safety scores on their token screener
<b>Giant Wallet</b>	Live WebView embed — full safety report inside the wallet
<b>PancakeSwap V2</b>	Primary DEX for \$WAR liquidity and trading
<b>Nabox</b>	Wallet ecosystem partner
<b>SMC DAO</b>	Community verification and ecosystem badge partner
<b>DappBay</b>	BNB Chain directory listing — submitted

## Community & Charitable Mission

From the beginning, Water Rabbit has been a community-first project. The 6% operations fee has always included a commitment to charitable outreach — giving back to the physical communities our members come from.

Charitable campaigns are built into the roadmap at Phases 4, 5, and 6 — growing in scale as the ecosystem grows in strength. This is not marketing. It is a founding principle. When we win, the people around us win.

The WAR-RIOR community spans multiple countries. It was built on the belief that financial freedom is not just personal — it is communal. Education, safety, and access to the tools that protect people's capital are not luxuries. They are the mission.
